Product URL <https://larsenlights.com/larsen-led-kit-for-caseih-maxxum>

Short Description: LED light kit that replaces the halogen lights with high power LED lights on the CaseIH Maxxum tractors. 6 work lights included - 2 for front cab beltline/handrail (side mount), 2 for the rear cab and 2 for rear fenders. For Maxxum 100, 110, 115, 120, 125, 130, 140 with rectangular work lights. Add headlights and top front cab lights if needed.

Full Description: Larsen LED kit for CaseIH Maxxum (rectangular work lights) An LED light kit that replaces the halogen lights with high power LED lights on the CaseIH Maxxum tractors. 6 work lights included - 2 for front cab beltline/handrail (side mount), 2 for the rear cab and 2 for rear fenders. For Maxxum 100, 110, 115, 120, 125, 130, 140 with rectangular work lights. Add headlights if needed. The Maxxum uses 6 side mounted light - this kit includes 2 side mounts for the lower front cab lights, but for the top front cab and rear cab / fender we use the "solid mount", this is a better mount for the lights and will work fine. We supply Deutsch DT connectors for you to install on the OEM wires if needed, or splice in the included adapter cable. It is not a plug and play kit. Lights used in this kit can be found in "Related Products" below. Fit : Maxxum, 100, 110, 115, 120, 125, 130, 140

SKU: CIH-Maxxum rectangular
